Summary

Final year B.Tech Computer Science student with hands-on experience in Python, SQL and web development. Built backend APIs using FastAPI and Flask, designed relational databases, and deployed projects with Git and Docker. Looking for a software developer role.

Education

B.Tech, Computer Science and Engineering - Rajiv Gandhi Technical University, Bhopal (2022 - 2026), CGPA 8.2/10

Skills

Languages: Python, Java, JavaScript, SQL, HTML, CSS
Frameworks: FastAPI, Flask, Django, React
Databases: MySQL, SQLite, MongoDB
Tools: Git, GitHub, Docker, Linux, Postman, REST API, AWS basics

Projects

Student Management System (Python, Flask, MySQL)

- Developed a web application to manage records of 500+ students with login and role based access.
- Designed database schema and optimized queries, reducing page load time by 35%.
- Implemented REST API with JWT authentication and unit testing using pytest.

Expense Tracker API (FastAPI, SQLite, Docker)

- Built backend services for adding, filtering and analysing daily expenses.
- Created Docker image and deployed the API, handling 200+ requests per minute in testing.

Experience

Software Development Intern - TechNova Solutions, Indore (Jun 2025 - Aug 2025)

- Developed 6 backend features in Python and fixed 25+ bugs in a production web application.
- Wrote SQL queries and reports that improved data analysis time by 40%.
- Collaborated with a team of 5 using Git, code reviews and agile sprints.

Certifications and Achievements

- Python for Data Science - NPTEL (2024)
- SQL Bootcamp - Udemy (2024)
- Winner, college hackathon 2025, built a library management system in 24 hours.
